

The image shows a spacious, modern clothing store interior. In the center, a long, thick wooden table with a natural edge is surrounded by several modern chairs. On the table, there are some folded clothes, a vase of flowers, and a small stack of books. To the left and right, there are racks of clothes, mostly denim jackets and shirts. The lighting is a mix of industrial track lighting and ornate chandeliers. In the background, there's a seating area with a sofa and armchairs. The overall aesthetic is clean, modern, and industrial.

NDS9

CURATING FASHION

**NDS9 IS DESIGNED TO BE MORE THAN A TRADITIONAL SUPPLIER.
WE ARE A DESIGN-LED PRODUCT DEVELOPMENT AND MANUFACTURING PARTNER.**

WHY NDS9?

01

End-to-End Design

NDS9 delivers a fully integrated creative and product development process, encompassing trend forecasting, sample development, and end-to-end design execution.

02

Speed to Market

With 300–500 trend-driven styles available year-round and updated monthly, our showrooms provide clients with a continuously evolving assortment that streamlines the buying process and significantly reduces collection development time.

03

Sustainability First

Our ESG-compliant facilities operate at 25% of industry standard energy consumption and 50% lower water usage, enabled by advanced laser and ozone finishing technologies.

04

Own Factory

Operating two manufacturing facilities in Bangladesh, with an additional facility forthcoming in India, we leverage direct production management to uphold stringent quality standards and deliver high-value fashion solutions.

- **ACCESS TO FASHION RUNWAYS**
- **ACCESS TO FABRIC EXHIBITIONS**
- **ACCESS TO HIGH STREET BRANDS**
- **ACCESS TO TRENDS FORECAST**
- **ACCESS TO INDUSTRY INNOVATION**
- **ACCESS TO FAST FASHION INTEL**
- **ACCESS TO PERFORMANCE REPORTS**

FASHION TRENDS → GLOBAL MARKET INTELLIGENCE → COMMERCIAL PRODUCT DEVELOPMENT → SCALABLE MANUFACTURING

The background image shows a spacious, modern showroom. On the left, a white clothing rack holds several patterned shirts. In the center, a long, light-colored wooden table is set up. In the background, there are more clothing racks and a desk area with a chair. Large windows on the left side provide natural light. The overall aesthetic is clean and professional.

Connected to global fashion

WE ALWAYS
HAVE OVER
500 STYLES
IN DISPLAY.

At NDS9, we transform emerging trends into commercially successful products by balancing creativity, market relevance, and manufacturing excellence.

Our approach is built on two core principles:

- **Sustainable Values —** Integrating responsible practices throughout the product development process.
- **Competitive Pricing, Uncompromised Quality —** Delivering exceptional value through cost-efficient solutions without compromising on craftsmanship or quality.

PRODUCTION

BANGLADESH

We follow sustainable production practice by using recycled raw material and sustainable production process such as:

- PCW recycled cotton
- Recycled polyester
- Recycled elastane
- Recycled water
- Reduced chemicals usage by using technologies like ozone and laser
- less power, us effecient process to reduce process timings.

"SUSTAINABILITY IS AT THE HEART OF EVERYTHING WE DO — FROM THOUGHTFUL DESIGN AND RESPONSIBLE FABRIC SELECTION TO INNOVATIVE WASHING TECHNIQUES AND EFFICIENT MANUFACTURING PROCESSES. WE ARE COMMITTED TO CREATING FASHION WITH A LIGHTER ENVIRONMENTAL FOOTPRINT AND A MORE RESPONSIBLE FUTURE"

PRODUCTION INDIA

Designed to redefine the future of apparel manufacturing, this state-of-the-art facility will integrate advanced automation, robotics, and Industry 5.0 technologies to deliver exceptional efficiency, precision, and production excellence.

Monthly Production Capacity: 1.5 million units of denim and fleece garments.

Vertical Integration: In-house fabric production for enhanced quality control, efficiency, and supply chain reliability.

Operational Launch: Scheduled to commence operations in November 2027.

LOCATION :
LNJ NDS9 GLOBAL PVT LTD,
RATLAM, MADHYA PRADESH

Combining cutting-edge technology, integrated production capabilities, and strategic logistics, the facility is envisioned as a benchmark for next-generation garment manufacturing.
